

This diagram shows an exploded perspective view of a multi-layered device assembly. The assembly consists of several main components: a top layer (24) with a top surface (104) and bottom surface (102), a middle layer (18) with a top surface (16) and bottom surface (22), and a base layer (20) with a top surface (26) and bottom surface (28). The top layer (24) features a central array of circular openings (42) and is secured by a cap (41) and a series of pins (44). The middle layer (18) also has a central array of circular openings (42). The base layer (20) includes a central square opening (23) and is surrounded by a series of pins (40). The entire assembly is shown in an exploded view to illustrate the relationship between the various components and their assembly sequence.
